

## REPORTS MADE ON HEBREW CHARITIES

Steady Progress in Work  
Among Boys and the Poor  
During Year Shown.

The United Hebrew Charities is in a very satisfactory condition, according to the report on the year's work made by Leo Baumgarten, president of the organization, at the annual meeting last night at the Eighth Street Temple. The board of managers was re-elected, and addresses were made by Dr. Louis Stern, Henry Franc and Julius Pevsner. Urging that young boys be kept off the streets, unless accompanied by adults, after 10 o'clock at night as a means of reducing cases of offenders in the juvenile court. Mr. Baumgarten recommended a change in the law. Speaking of this feature of his report, he said:

### Juvenile Offenses at Minimum.

"The number of juvenile offenses has been reduced to a minimum, but five cases were heard during the year, two being sent to the industrial home, and three sentenced to the reformatory. Our motto regarding juveniles is: 'We win our cases before they get into court.'"

"We have had at all times the earnest support and co-operation of Judge Latimer of the juvenile court. In no case have we do not believe there exists any necessity for boys of tender years to be on the streets at 10 o'clock unaccompanied by adults. In poolrooms they are frequently found, no law existing that prevents minors from entering or remaining."

"Would it not be good for the community and the welfare of the boy if the law were changed from 10 o'clock to 12, or even to 1, so that approximately 25 per cent of the boys selling papers and merchandise are of our faith, and yet the officers report that they have practically no trouble with them. During the year we believe there was but one case reported."

Mr. Baumgarten cited the reduction of expenditures during the usually dull months of the year, June and August, giving the figures as \$274 for this year as against \$583 last year. He said:

### Now Plentiful.

"This reduction may be accounted for by reason of the fact that work is plentiful, on account of the war, and as a rule our people are always ready to accept employment; and the further fact that we have consistently refused to encourage the settling in this city of strangers who are liable to become dependents."

"Previous to June our expenses were heavy, unusual demands making enormous inroads on our resources that in March we were compelled to issue an appeal for additional funds to replenish the treasury. The responses being generous and prompt, enabled us to continue better than ever the constructive work that we believe will eventually reduce the demands to a minimum."

"We must continue to teach the poor to become independent. As evidence that we are succeeding, our treasury shows a surplus of over \$350 during the past year."

"The causes that have led families into poverty are numerous. In past years we have done at length on the subject. Lack of work, one of the causes, has, at least for the present, been eliminated. We have had no dif-

ficulty during the past three months in obtaining employment for all that applied.

"That many former applicants are now depending on their own resources is evidenced by the fact that during the past three months there have been but fifteen new applicants for help."

Mr. Baumgarten outlined the work of the Council of Jewish Women, the Jewish Foster Home, the Jewish Home for the Aged and the Hebrew Free Loan Society, highly complimenting them for their assistance.

The expenses for the poor during the year were \$7,000. The entire expense for salaries was \$600. The board authorized the payment of \$300 yearly to the Jewish Home for the Aged.

PROTOPPOFF IN HOSPITAL.

### Former Russian Minister Escapes Lynching by Soldiers.

PETROGRAD, October 31.—Alexander D. Protopopoff, former minister of the interior and one of the leading reactionaries of the imperial regime, has been removed from the fortress of St. Peter and Paul to a hospital on account of ill health.

After his removal he was threatened with lynching by a group of soldiers, who broke into the hospital and demanded the assurance of the truthfulness of the reports that his condition was serious. The hospital authorities succeeded in especially recommending for style of design and serviceability.
